21. Give three observation/suggestions to improve the overall teaching–learning experience in your Institution.

- Complete the course of any subject topic wise with notes. In online media use stylus and screen like board so that students can understand. Teaching through book without writing on screen should not be done. Teacher should reply to students when they message them. And provide proper notes
- 1. It is very difficult for students to remember the content taught in the zoom meetings so Teachers must prepare the content thoroughly before delivering and try to provide proper notes.,  
2. Teachers should be more interactive with students in promoting awareness about the opportunities in their field of study.  
3. College should organize activities to improve awareness about the usage of the technical tools in Corona times as everything is online and many students are unaware about the usage of these tools.
- 1. Assign proper mentor.  
2. Increase the interaction with students.  
3. Resume offline class as soon as possible.
- Make teaching a two way interaction
- Our institution is the best institution in the Jaipur and its teachers are very supportive and kind. they teaches us very nicely and always complete their syllabus on time so that's why our institution don't need any improvement.
- By taking more practical classes  
By taking assignment not in written but also in oral
- By taking more practical classes  
By taking assignment not in written but also in oral
- Use of ppt files instead of pdf while teaching because pdf causes trouble to understand what current topic is going on.  
Please don't read as it is written in ppt/pdf. Please try to explain it in ease way.  
And all other things are great as we want.  
Please try to solve these two problems.
- 1. All the components, machines and proper PCs must be available in labs, which are not.  
2. Teacher should connect the concept with practically for better understanding.  
3. Should be good communication between student and teacher and teacher should have to clear the student's doubt in a limited time with satisfaction.
- Facilitate in-class discussion groups.
- Try not to cover the entire syllabus at last time but start before so that students have time to understand and cooperate.
- Open regular classes in college
- The teachers should send all subject notes in PDF files who are unable to take online classes.  
Should ask the students that they have understood the topics that they have sent.
- Regular classes will be held at time  
Teacher have a good knowledge
- Good teaching  
Provide handwritten notes  
Extra classes required
- Provide better and handwritten notes.
- 1. Communication between Teachers and Students  
2. Discussing Performance of midterms and assignments  
3. Putting more focus on soft skills.

- Excellent and much better than other institutions...
- 1) doubt solving sessions  
2) previous yr paper discussions  
3) assign tasks
- Relate concept with live examples
- Three suggestions I would deliver:
  1. Institute should enhance problem solving abilities in the students rather than the conventional form of learning by giving them assignments.
  2. Second for the teachers, they should come up with PPTs every time and discuss the topics with each of one and sometimes video lectures for the same.
  3. Institute should organize objective based test after every two weeks ; this will bind students to learn with interest
- Overall satisfactory
- 1. It's very good in teaching.  
2. Improvement in labs, and arrange the computers of good quality .  
3. And sometimes faces many problem with teacher's, so please provide the best teachers.
- Good
- Make connections to real-world applications of the course material.  
Make teaching a two way interaction
- Semester exam online conduct
- 1. Improve online teaching techniques  
2. Proper notes must be provided
- Better connection and consistent platform!
- I am satisfied with my college's teaching
- 1. Provide proper notes of each subject.  
2. Provide reference books that can be used for studying.
- With practical knowledge it's too hard to understand the concept properly.
- Teacher should provide the... Necessary material for... Learning
- Please change the learning styles of teacher as well as madam
- All are good
- Handmade should also be provided
- Provide extra info about the topic
- Practical knowledge can be more  
There should be a lecture were they discuss about the new on going technology
- Practical knowledge can be more  
There should be a lecture were they discuss about the new on going technology
- All are good.  
Effective classes.
- Focus more on intellect
- should provide practical knowledge,  
should teach about growing technology,  
should motivate about circular activities
- Make own app for learning
- 1. We should emphasize on practical learning.  
2. Transforming the education pattern by including vocational courses and professional courses.  
3. More emphasis on skill based

- The facilities are always available for encouraging and helping the students
- Should provide worksheets to solve
- Improve education system, well trained teacher, opportunities for students
- Teachers teaching very well
- There's nothing to improve
- Very well teaching by the institute
- 1>  
Teach students critical thinking skills rather than just teaching them to memorize facts.
- 2>  
Teachers should be demonstrated anything present in the environment which is related to the topic that he/she is going to teach the class .So that the students can have some idea about the topic and at the same time it become most interesting .
- 3>  
Focus on skills
- It should be practical based.  
All above is on behalf of online education.
- Teacher have to check the ability of students
- 1. Use better graphics and visual media to engage students well.  
2. Try to reach every student and ask for their doubts.  
3. Make teaching a two way interaction.
- Lab, practical knowledge, personality
- 1. Kept the focus on Industrial demanded skills.  
2. Don't be strict to take attendance rather take projects to develop students skills.  
3. Minimize the copy work and focus on practical knowledge.
- They should explain by ppt  
And they should give more focus in practical
- 1) College management should have to replace black boards to smart boards.  
2) and faculty members used extra outsides examples( which we faced in real life or every time )to clearing the concept.  
3) Provide only experienced teachers.
- There is no need to improve because everything is perfect in this institute according to me.
- Provide us technical Opportunities/trainings on time.  
Overall good
- Everything is perfect
- Good communication  
Very good institution environmental area  
Good faculty
- Hire specialist teachers in all subjects.  
Increase numerical questions for required subjects.  
Increase creative and analytical questions in assignments wherever required.  
Please regularly conduct this kind of survey.  
Do not disturb or force teachers for management's work, for instance - asking students for fees, admission process, let them focus on teaching.  
Regularly try to improve teaching - learning process.  
More focus on practical  
Ask same this question to teachers.

Always keep eyes on other national, international institutions and learn their good things etc...  
Thanks for a good effort.

- over all teaching learning process of institution is very good but we should focus over lab activities more than theory
- 1. First of all improved time table every day classes not going on time.  
2. Teachers teach well but it's too fast that we can't gain it in online classes.  
3. Improve time table. Because class never going on time.
- Faculty are very supportive and helpful nature
- sometimes I observed very well  
teachers can provide education properly  
teachers can teach in good topic
- Provide study material & also references for better understanding
- Understand the student's questions and give the answers  
Sometimes use video lecture  
Provide more machines and lab technicians
- Not the best but satisfying
- I suggest that the teachers will teaches weak students strongly
- Very good teacher and study is provided nice
- Provide proper notes
- Everything is fine
- Should have offline classes, many time network issues should improve quality
- 1) I would like if they discuss about homework more.
